

Mash

MOTORCYCLES

Thank you for choosing a MASH motorcycle.

All the pleasures of driving are promised if you follow the instructions inside this booklet.

We recommend that you pay attention to the following points:

The quality of the running-in will depend on the longevity of your MASH.

Check your oil level frequently and the tire pressure.

Never use SP95 E10 fuel. SP95 or SP98 only.

Systematically check the entire chassis of your MASH.

Grease and properly tension your drive chain, if your MASH has one.

Do not modify your MASH. This vehicle has been approved under very specific conditions, according to the articles of the Highway Code currently in force. Any modification must be reported to your dealer. Caution: any modification aimed to modify the behaviour of the engine or the chassis will void this warranty.

This book must be presented to any MASH dealer approved by the local distributor for any maintenance operation or request for warranty application. Maintenance and oil change being compulsory to keep the warranty. Do not forget to have the technician or dealer to record the service history in this booklet.

General Warranty Conditions:

Any new MASH product accompanied by this booklet is covered by the legal guarantee against hidden defects. The warranty will be in effect if any hidden flaws in the vehicle sold that make it unfit for its intended use, or that reduce this use so much that the buyer would not have acquired it, or would have given only a lesser price, if he had known them.

The action resulting from latent defects must be brought by the purchaser within 2 months from the discovery of the defect benefits from a contractual warranty of 24 months from the date of registration, without mileage limitation. This warranty is only valid with the network of authorized resellers.

Thus, the seller is to deliver goods in conformity and respond to any lack of conformity existing during the issue.

The warranty applies if the product is and remains fit for the use normally expected of a similar good and, where applicable:

- Corresponds to the description given by the seller and has the qualities that he has presented to the buyer during the purchase
- Have the characteristics defined by mutual agreement by the parties or be specific to any
- Special use sought by the buyer, notified to the seller and which the latter has accepted
- All periodic maintenance schedules are done using original Mash parts and are the responsibility of the customer.
- This book includes a warranty certificate which must be fully completed by the reseller at delivery. The owner's signature certifies that he recognises and accepts the attached conditions.

The MASH warranty applies to the vehicle. Consequently, the transfer of ownership does not change the conditions of application of this warranty. However, the new buyer must inform the dealer the coupon that refers to "Change of Ownership".

To benefit from the warranty, the user must present to the authorized repairer the duly completed warranty booklet which justifies that the maintenance operations recommended by the manufacturer have been performed.

The MASH warranty applies free of charge (parts and labour) to any defect in material or assembly noted. The cost of consumables (engine oil, transmission, coolant, brake fluid, oil, air, petrol, spark plugs, light bulbs) and shipping / postage of the parts will always be charged to the customer.

The replacement or repair of any part recognized as defective is left to the discretion of the Mash Warranty Service Office.

Warranty work must be carried out under the responsibility of the authorised the workshops.

Mash, the distributor and the dealer, reserve the right to inspect the vehicle or the parts that caused the damage, in order to determine whether the warranty is applicable.

This warranty does not apply if it is proven that the defect materialised because of:

- The vehicle was used for competitions of all types or for hire
- The vehicle has not been maintained normally and that in particular the instructions for use or the maintenance given to it, were not observed.
- Non-original parts have been fitted or modifications have been made to the vehicle that have not been authorised or provided by the manufacturer.
- The user had the vehicle repaired or serviced by a non-authorized workshop.
- The vehicle was used abnormally (for example: participation in sports competitions, even temporary overloads, prolonged non-use of the vehicle, etc).
- When the damage is the result of normal wear and tear of the equipment.
- Normal wear parts, such as tires, saddle, bodywork, plastic, stickers, , candle, bulbs, electric wires, cables, filters, chains, transmissions, drive chain and chain guard, screws, brake pads, variator, belt, clutch, clutch housing, rollers, bellows, transmission, bearings, oil seals, exhaust pipes by external or internal corrosion, as well as certain seals are not covered by the warranty. The carburation settings, valve clearances, cables, tightening, seizure, piston drilling, yellowing and oxidation of chrome in general due to a lack of maintenance. The batteries are guaranteed 6 months.

This contractual guarantee does not in any case cover maintenance costs, as well as any breakdown assistance costs, towing, immobilization of the vehicle and travel costs, the damage suffered by goods or goods transported.

IMPORTANT: the use of non-original exhaust silencers or any other modification intended increasing noise and power systematically eliminates any possibility of warranty claims.

In addition, these modifications tending to increase noise and power entail the responsibility of the owner vis-à-vis the law.

Customer responsibility:

- The customer must ensure that the vehicle is used and maintained properly, in accordance with instructions and guidelines provided.
- The customer must perform frequent cleaning of his vehicle with products suitable for this purpose, this which will not only improve its appearance but will extend its life and use, as well that of the components.
- The customer is responsible for the cost of periodic maintenance and inspections, as well as the costs replacement of worn parts.
- The customer must bear the defects and damage resulting from misuse or an accident, as well as the direct or indirect costs resulting therefrom.
- The customer must present his vehicle to an authorized Mash dealer within ten days of the moment where he has noticed or suspected a mechanical defect or incident that may fall under the warranty.
- The customer also bears the costs of disassembly - reassembly and / or control of an alleged warranty issue when it turns out that it cannot be covered.
- The customer is responsible for subsequent repairs following an intervention under warranty, if these are not covered.

Getting Started – Pre-Delivery Checks:

- Before delivering the vehicle to you, your authorised dealer has made final controls. These controls focus mainly on the following points:

-
- Check the oil level in the engine.
 - Check the brake fluid and battery electrolyte level.
 - Function control of electrical components.
 - Headlight adjustment.
 - Tire pressure, and control of the front and rear suspensions.
 - Idling control.
 - Leak test (petrol - oil - coolant).
 - Correct tightening of front and rear wheel nuts, shock absorber axle nuts, brake caliper screws, engine mounting bolts, transmission components, handlebar screws.
 - Check the tension of the front and rear wheel spokes.
 - Adjustment of the brake and clutch.
 - Adjusting the tension of the drive chain.
 - Test course with examination of the functioning of all the organs.

Good Luck and enjoy you're your new MASHine!
